

Step 7
Open the eye on the eye pin. Slide it onto all the lines, between the knot and the R1. Close the eye - crimp it. Twist the eye pin upwards just behind the eye.

Step 8
String the hole of the cap and 1x R2 onto the eye pin. Shorten the protruding wire to 0.8 - 1 cm. Grip it between the points of the round pliers. Twist it around the point. Gently twist it back at the edge of the hole in the R2.

Step 9
Hang an earring hook onto the created eye.

EARRINGS MADE FROM PRECIOSA SOLGEL SEED BEADS

Simple
tassel

PRECIOSA

Simple tassel

Adorn yourself with a pair of distinctive earrings. Use the color range provided by PRECIOSA Solgel to create seed bead tassels which will not only look great as earrings, but also as a necklace.

Materials and tools:

PRECIOSA Rocailles (R1)
331 19 001; 10/0;
03623 light purple; 350x
(per tassel) or 5 g

PRECIOSA Rocailles (R2)
311 19 001; 6/0;
23420 coldly purple; 1x
(per tassel)

- a thin needle; a nylon line, for example LIO4 (for the R1); scissors; tailor's thread (a thread loop); a ruler; needle-nose pliers (or snipping pliers and pliers with a rounded point); liquid super glue

- caps - 9 x 18 mm end pieces for a cord (an internal diameter of 6 - 7 mm); an eye pin that is 30 mm long or longer; earring hooks

Difficulty: ●●●●●

Technique: stringing, eye pin linking

Procedure:

Step 1
Prepare a large thread loop in the needle. Cut off about 15 cm of the tailor's thread. Thread it through the eye of the needle. Tie a regular knot. Move the knot to the side of the thread loop.

Step 2
Cut off about 50 cm of line to string the R1. Thread the line through the hole in 1x R1. Move the R1 to the middle of the line. Place both halves of the line next to one another.

Step 3
Insert the doubled line into the thread loop. String 4.8 - 4.9 cm of R1. The total length of the tassel will be around 5 cm, including the 1st R1. You can pour out 5g of R1 onto a mat. Scoop the needle into the pile. The R1 will move onto the needle by themselves. Occasionally mix up the pile.

Step 4
Repeat Steps 2 and 3 another 8 times. This will result in a total of 9 tassels.

Step 5
Place all the tassels next to one another. The R1 should be placed close to one another. The last R1 in each stringing should be in a line with the others in each tassel.

Step 6
Pick up all the tassels from the mat together. Tie all of the lines together with a regular knot. Create a loop and thread all the ends of the line through it. The knot should be located immediately behind the R1 after tightening. Apply a drop of super glue onto it. Leave it to dry. Cut off the ends of the line about 3 mm behind the knot.
